To whom it may concern,

This is a letter to confirm that our purchase of the Dingo Mini Digger was one of the better decisions our department has made over the past few years. The digger has been extremely efficient and versatile in performing tasks that we have applied it to. The staff who operate it are very happy and find it easy to use. The Dingo performs all manner of work in tight, difficult to access areas. We use it specifically for digging holes for our tree planting operation and it handles this work with ease. It is also a very important factor that this machine alleviates the work which is normally carried out by manually digging. O,H & S issues and procedures are a vital aspect of our Councils' operation. We have not had one back related injury since we purchased the Dingo.

In short we are quite happy to recommend the Dingo Mini Digger as we have had no major problems with it since our purchase of the machine three years ago.

Regards,

Mick Dalton
Works Co-ordinator
City of Maribyrnong.
